GAZETTE GLEANINGS.

The new car stables loom up, The Albuquerque Fair begins next week.

The western bound train was delayed by a storm above Raton.

The streets and park on the West Side are being improved.

The telegraph wires were down east of Denver last night on account of a severe wind and rain storm in Kansas and Nebraska.

A much needed improvement—a sidewalk from the west end of the bridge to the Post-office.

Four hundred cars were in the yard yesterday, which indicates a pretty lively freight traffic.

A. Dold has sold Chapman Hall to Dave Winterhitz for \$2,500. It is considered low at that price.

Notice to contractors will be found in another column asking for bids for the construction of Eugene Reiley's new building on the East Side.

A veritable boom is in progress in Las Vegas and no mistake. It is not a boom on paper but a real investment of large capital in substantial improvements.

Mr. Edward Henry and C. Frank Allen are pushing things at Browning's headquarters in his absence. They have made some good sales and report more to follow.

Mr. C. H. Marsh, of Cimarron, will have an exhibition at the Albuquerque Fair some eighty specimens of New Mexico birds stuffed and mounted in the highest and most approved style of the art.

The new way-cars on the A. T. & S. F. R. R. will doubtless be appreciated by the Conductor's and brakemen. They seem to be built and arranged up on the very best possible plan, and of the best material.

The building just east of the National Hotel although not an unsightly or dilapidated one by any means, is being torn down to make place for a structure more in harmony with the style of new buildings that are springing up all over town.

Superintendent Hart, of the Gas company, states that the pipe has been received for carrying the gas across the bridge and he will put it down at once and insure the West Side abundant light. The lamp posts are being rapidly put in position.

Ryan, one of the Blue Cut train robbers, has been sentenced to twenty-five years confinement in the Missouri penitentiary, but it does not seem improbable that the train robbers may capture the Governor and compel the State to an exchange of prisoners.

There is a fine opening in White Oaks for a saw-mill. A man who will go in there with capital enough to run the business, will find plenty of timber and water and he can make an independent fortune, as the people of the growing town of White Oaks must have lumber.

J. Bernard, in returning to town from his ranch, came by the way of Los Valles and says the citizens there have made a splendid road up the Los Valles hill. It is a road over which a good load can be easily hauled. The people of Los Valles deserve credit for their enterprise.

George M. Lawton, the young man who suicided at the Summer House a few nights since, was given a decent burial, as directed by his friends, on yesterday afternoon. Rev. J. C. Eastman, of the Presbyterian church, conducted a funeral service.

Some gentlemen on the platform of the depot, yesterday, expressed great surprise at finding that Las Vegas is supplied with the very best quality of lumber for building purposes from mills in the near vicinity and that large quantities of lumber are exported from here to points south and west.

Blythe Brothers yesterday bought two lots belonging, respectively, to Geo. J. Dunkel and I. Stern, for the sum of \$2,200. These lots front on Railroad Avenue, between Payne & Bartlett's and the Arcade saloon. Messrs. Blythe & Brothers will at once put up a large two-story brick business house. Thus improvements go on and real estate booms.

John Elliott, Ex-Governor N. Green, Geo. S. Green, John W. Webb and C. Gill, prominent citizens of Kansas, stopped in Vegas and went out to the Hot Springs and yesterday resumed their journey southwest to El Paso. These gentlemen expressed much pleasure at what they saw of our city and will stop as they return to look round more closely and get a better idea of our advantages.

J. M. Hamilton, of St. Louis, and C. R. Crane, of Chicago, after spending a few days in Las Vegas, went South on a short visit yesterday. These gentlemen are thoroughly impressed with the promise of the future of our city, and will doubtless give substantial evidence of their faith by leaving a few thousand dollars in real estate here to appreciate upon their hands and make them rich in spite of themselves.

To give our readers an idea of what supreme idiots men sometimes grow to be, and yet live and have reasonably good health, we quote the following characteristic insanity from the *Communist*: "Then away with the private property system! It is the greatest and direst evil that has ever befallen the sad lot of man. There is no good in it whatever, but it makes of man a remorseless murderer, a revengeful tormentor, a dishonest trader, and an avaricious, inhuman oppressor, and it invariably produces upon this otherwise fair earth of ours a thousand times more misery than all other evils combined." Did the man "among the tombs" give any clearer or more conclusive evidence of his lunacy than the above, and yet the man who wrote it lives and publishes a newspaper.

The grand opening of millinery goods at Charles Hild's store, yesterday, was a decided success. The rooms devoted to this department thronged all day by handsomely attired ladies who desired to learn what was new and popular in dress for the fall and early winter. Mrs. Mary P. Ellis, who has charge of this department, is a lady of very excellent taste and judgment in millinery goods and dress. The line of goods are very fine and they are handsomely arranged for examination. Mrs. Ellis is assisted by Mrs. Hild and sister, Miss Emma Nordhaus, during the opening, in receiving and showing goods to the ladies who call. The opening will be continued to-day and those who were not able to attend yesterday will thus have an opportunity to see the latest and noblest in fashion.

Dr. T. A. McKinney and Mr. J. B. Page got into trouble on the East Side night before last, about some trivial matter, and the doctor went for Page with his walking stick in such a manner as seriously to disturb the comfort and convenience of the said Page; and jeopardize the public peace to such an extent that the strong arm of the law was invoked and the doctor, contrary to his usual custom, was compelled to spend the night in the bull-pen. Our medical men should avoid such predicaments, for when a doctor is needed he is needed badly, and a patient might die before the physician could get out of the bull-pen to attend him.

Mr. T. A. Asbridge, the contractor for the brick work on the new college building, is rapidly pushing forward his part of the work and under the deft hands of his men the walls are rapidly rising and taking the form and symmetry of a "thing of beauty." The building will be two stories high, forty by sixty-five feet, and each floor will contain two large and commodious school rooms besides recitation rooms, cloak rooms, and all the most approved and convenient appointments for a first-class college.

We have received a copy of the *Communist*, an utterly utter publication of Principia community, Polk county, Mo. Its motto is: "From each according to his ability—To each according to his wants." It is printed in phonetic characters, is independent in religion, Greenback in politics, communistic in its tendencies, and nihilistic in its influence. Our candid conviction is that the sooner this government shall define the boasted "freedom of press" principle in our institutions so as to suppress all such publications, the better for the general welfare and the prosperity of our republic form of government.

Governor L. A. Sheldon and Adjutant General Max Frost, returned to Santa Fe last night from Las Vegas. The Governor was very favorably impressed with the place, and Mr. Frost, who has visited the town before, reports that it is growing rapidly and is a busy place. Governor Sheldon has now been to all the prominent towns in the Territory, with one or two exceptions, and is quite well acquainted with the localities. He had a very pleasant time in Vegas, and became acquainted with a number of the prominent citizens of that place.—*New Mexican*.

What to do with Guiteau is now one of the absorbing questions among the lawyers. Certainly a code that will admit of any difficulty in meting out punishment to a murderer needs amending, and especially is this the case when every preceding and attendant circumstance connected with the act of murder bears the stamp of cold-blooded and deliberate devilry so strongly impressed upon it as this crime of Guiteau's. We believe he should have just such justice as a jury of twelve good men shall decide, as speedily as possible, and then discuss the technical and philosophical phases of the case afterwards.

A few nights since fifty armed men boarded the train on the Missouri Pacific R. R. at Jefferson City, Mo., and the train people telegraphed the management of the Railroad to know what to do. General Manager Talmage instructed them to arm themselves at Sedalia, which they did, at the expense of the railroad. It is supposed that these people got on the train, under the impression that Gov. Crittenden was on board and with the purpose to capture him.

Capt. J. J. Fitzgerald yesterday sold \$4,350 worth of town property, and it was not a first-rate day for sales either.

President Arthur is said to be closely guarded at all times so that it would be next to impossible for any suspicious characters to approach him without attracting attention in time to admit of defense in case he should be attacked. We trust this vigilance may not be relaxed if it is necessary to save our country from the shock and humiliation of another assassination of its chief magistrate.
